HEALTHY SCHOOLS ACT REQUIREMENTS
FOR SCHOOLS AND CHILD CARE CENTERS

| Identify school designee | • choose a person (at the center, school, or district level) to make sure the requirements of the Healthy Schools Act (HSA) are met  
| • also known as the Integrated Pest Management (IPM) Coordinator |

**NEW** as of January 1, 2015:

| Develop an IPM plan* |
| • create an IPM plan using the template for an IPM plan provided by the Department of Pesticide Regulation (DPR); or get your IPM plan approved by DPR  
| • post the IPM plan on the center, school, or district Web site; if you do not have a Web site send the IPM plan to all parents, guardians, and staff with the annual written notification  
| • the IPM plan must be available to view in the center or school office  
| • the Web site for the IPM plan must be included in the annual written notification  
| • the template for an IPM plan will be available on the DPR School IPM Web site by January 2015 |

| Provide annual written notification* |
| • send all parents, guardians, and staff a written notification of pesticide products expected to be applied at schools and child care centers (school/sites) during the year  
| • provide product name, active ingredient, Web site for the IPM plan, and the DPR School IPM Web site  
| • the notification must also inform parents, guardians, and staff that the IPM plan is available to view in the center or school office  
| • if you hire a pest control business, include any pesticides they may use  
| • if a product not included in the annual notification is used, give written notification to all parents, guardians, and staff at least 72 hours before application |

| Establish individual notification registry* |
| • allow all parents, guardians, and staff the opportunity to register to be notified before each pesticide application  
| • notify everyone on the registry about individual pesticide applications at least 72 hours before each application  
| • provide product name, active ingredient, and intended date of application |

| Post warning signs* |
| • post warning signs at each area where pesticides will be applied so that they are visible to anyone entering the area  
| • post signs at least 24 hours before and leave up at least 72 hours after an application  
| • signs must read “Warning-Pesticide Treated Area” and include product name, manufacturer’s name, U.S. EPA registration number, scheduled date and areas of application, and reason for application |

---

1Visit DPR’s School IPM Web site: [www.cdpr.ca.gov/schoolipm/](http://www.cdpr.ca.gov/schoolipm/) for more detailed information about the Healthy Schools Act (HSA), as well as sample forms for meeting the requirements of the HSA.
Keep records*

- keep records of all pesticide applications for four years at each schoolsite
- records must include product name, manufacturer’s name, U.S. EPA registration number, date and areas of application, reason for application, and amount used
- make records available to the public when requested

NEW as of January 1, 2015:

- send pesticide use reports for pesticide applications made by schoolsite employees to DPR annually or more frequently
- submit reports no later than January 30 for the previous year (for example, submit your 2015 reports no later than January 30, 2016)
- use the DPR form HSA-118 (Pesticide Use Reporting For School And Child Care Employees) which will be available on the DPR School IPM Web site in January 2015
- DO NOT submit pesticide use reports for pesticides applied by contractors; they will submit their reports to DPR

Don’t use prohibited pesticides

- pesticides with inactive registrations or that are on the *List of Pesticide Products Prohibited from Use in Schools and Child Care Facilities* cannot be used on schoolsites
- this list is posted on the DPR School IPM Web site
- always check this list prior to using a new pesticide product
- check the DPR product database at [www.cdpr.ca.gov/docs/label/labelque.htm](http://www.cdpr.ca.gov/docs/label/labelque.htm) before using old products to verify that the registration is still active

NEW as of July 1, 2016:

- take a DPR-approved training course before applying pesticides, and renew annually
- the list of DPR-approved courses meeting this requirement will be available on the DPR School IPM Web site in spring 2016
- this training is required for the IPM coordinator and anyone who will apply pesticides (including disinfectants) at the schoolsite
- the training must focus on schoolsite IPM and the safe use of pesticides in relation to the unique nature of schoolsites and children’s health, and is in addition to the required annual pesticide safety training

*The HSA exempts certain types of reduced-risk pesticides from the IPM plan, notification, posting, recordkeeping, and reporting requirements. These reduced-risk pesticides include self-contained baits or traps, gels or pastes used for crack-and-crevice treatments, antimicrobials, and pesticides exempt from registration under the Federal Insecticide, Fungicide, and Rodenticide Act (Education Code Section 17610.5)). To determine whether a product is exempt, or not, read the label carefully, and consult DPR’s *Exempt Pesticides Worksheet* on the DPR School IPM Web site.*
